

**DEPARTMENT OF ENERGY AND ENVIRONMENTAL PROTECTION
JOB OPPORTUNITY
ENGINEER INTERN**

PLEASE FOLLOW THE SPECIFIC APPLICATION FILING INSTRUCTIONS AT THE BOTTOM OF THIS PAGE!

Open To: The Public

Location: Material Management and Compliance Assurance
Water Permitting & Enforcement Division
Hartford, CT

Position#: 109029

Type of Position: Full-time, Permanent

Annual Salary: First year: \$52,177.00 (ES 18 Step 5), Second year: \$52,858 (ES 18-7)

Closing Date: September 12, 2014

Eligibility Requirement:

To be considered for this position a candidate must have earned, by the time of hire, a bachelor degree in civil or chemical, or environmental engineering. The ENGINEER INTERN positions offer on-the-job training in professional engineering under the direct supervision of an Agency Sanitary Engineer. By participating in engineering tasks, the ENGINEER INTERN will acquire knowledge and experience needed to be promoted to Sanitary Engineer 1 upon satisfactory completion of the one- to two-year Intern training period. State employees currently holding the above title or those who have previously attained permanent status may apply for lateral transfer.

Description of Duties: The successful candidate will be responsible for assisting staff of a higher grade in the Water Permitting and Enforcement Division in the performance of the following tasks:

- Review of engineering reports, plans, and specifications related to the conveyance and treatment of wastewater;
- Review and process water discharge permit applications for wastewater discharges in order to protect the waters of the state from pollution;
- Field investigations at sites of existing and proposed wastewater treatment and disposal systems;
- Initiation of enforcement actions to bring non-compliant dischargers into compliance with applicable laws and regulations;
- Represent the Department at public hearings, meetings and court proceedings;
Work with municipal, federal, and other state agency officials; and
- Perform other tasks as necessary to meet the Department's statutory responsibilities related to wastewater permitting and enforcement.

The preferred Candidate will have the following:

- Course work or experience in chemical, civil, environmental, or sanitary engineering; water pollution control or wastewater treatment;
- Hydraulics and/or hydrology; stream water quality modeling; and interpreting and enforcing environmental laws and regulations;

- Good project management skills, proficiency in using computer software applications, including but not limited to databases, spreadsheets, and MS Office Suite, and water modeling applications, and will have the ability to prioritize and track multiple tasks, communicate effectively orally and in writing, and work with others in a professional manner.

General Experience: A Bachelor's degree in the discipline required by the target class

Special Requirement: May be required to travel and must possess a valid driver's license. May be required to attend evening meetings.

Note: The filling of this position will be in accordance with reemployment, SEBAC, transfer, promotion and merit employment rules, if applicable.

Application Instructions: Interested and qualified candidates who meet the above requirements should submit a cover letter, a resume, and an ([CT-HR-12 form](#)) Application for Employment to be received no later than the Closing Date above. Current State employees must also include copies of their two most recent performance appraisals. Incomplete or late packages will not be considered. Submit applications by email, fax, or USPS to:
